

Effective Jun 1, 2020, Governor John Carney has implemented phase 1 of the reopening of Delaware.

CCWC has begun having drive-in services as of May 17, 2020. We are authorized to have inside building services at 30% of building maximum capacity according to the State Fire Marshalls Code. This requires strict requirements in establishing social distancing guidelines implementation established by the CDC. In addition, cleansing stations established plus constant sanitation requirements. All these measures are designed to reduce the spread of COVID-19.

I have elected the drive-in service model because restrictions are minimum for Worship services. Services begins at 10:30am on Sunday mornings. Services will be posted on Church website after service at ccwcde.org.

God Bless CCWC family and friends.
